PROPOSED REVISION TO THE EAST HONOLULU PUBLIC INFRASTRUCTURE MAP

Project Title: Relocated Wailupe Fire Station

Request: To revise a portion of the East Honolulu Public Infrastructure Map (EH PIM) by adding a Fire Station (FS) symbol for the relocation and construction of a new Fire Station.

Requested By: Honolulu Fire Department (HFD)

Description of Project: The Wailupe Fire Station will be relocated from its current location at 5046 Kalaniana'ole Highway to Tax Map Key 3-6-011:009 (portion). It will be constructed as a single-story regional fire station that will accommodate up to four fire apparatuses, crew quarters, classrooms, and supporting administrative and training facilities. This fire station will also serve as a regional fire support and depot facility for other East Oahu fire facilities during large scale man-made and natural emergencies.

Project Cost: Undetermined

Project Location: The selected site is the northern most portion of Tax Map Key 3-6-011: 009 as shown in the enclosed map.

Land Ownership: City and County of Honolulu

Basis of Request: The HFD needs the Wailupe Fire Station to meet its Standards of Cover and to sustain the current level of service to the area. However, the current Wailupe Fire Station is small, poorly located, and unable to be renovated or rebuilt to safely accommodate additional fire apparatuses. Additionally, the fire station is experiencing increasing call volumes and the area is seeing a growing aging population that relies on the HFD's services. The HFD requires more resources, such as the relocation and construction of the Wailupe Fire Station, in order to continue to support and provide uninterrupted emergency response services to this and neighboring communities.

Public Infrastructure Map Designation: The Wailupe Fire Station was constructed prior to the adoption of the PIM and therefore does not have a designated FS Symbol. The proposed revision will add the first FS symbol to the EH PIM. Existing PIM symbols include Police Station (PS) symbol (EH PIM number 14), Rapid Transit Corridor (RTC) symbol (EH PIM number 016), and a Drainage Way (D) symbol (EH PIM number 016.)

Zoning: P-2 General Preservation District, R-7.5 Residential District, R-10 Residential District

State Land Use Designation: Urban District

Special Management Area: Outside of the Special Management Area

Existing Use: The selected site is covered predominantly by trees and overgrowth, and abuts the parcel's other existing uses, which are Aina Haina Community Park and Aina Haina Elementary School.
